ROHIT MORE

Leeds, United Kingdom |07741531933 | morerrohit05@gmail.com

PROFESSIONAL SUMMARY

Technical professional with MSc in Data Science and 2+ years' experience building data solutions, SQL-based workflows and analytical dashboards. Currently expanding expertise into Microsoft Power Platform development, leveraging strong foundation in data modeling, Python/SQL programming and stakeholder-focused solution design. Proven ability to translate business requirements into technical solutions, work collaboratively with cross-functional teams, and deliver secure, maintainable outputs in regulated environments. Seeking to apply technical skills and learning agility to software development role focused on Power Platform and Dynamics 365 CRM

SKILLS

Power Platform & Microsoft Ecosystem: Power BI (dashboard creation, data visualization), actively learning Power Apps, Power Automate, Dynamics 365 fundamentals and Dataverse concepts through Microsoft Learn
Programming & Data: SQL (Advanced: complex queries, joins, data validation), Python (Pandas, data manipulation, automation scripts), R (statistical analysis)**,** Database design, data relationships, schema mapping, data quality assurance, reconciliation workflows
Cloud & Tools: Oracle Cloud Infrastructure (OCI certified), Oracle DRM, Jupyter Notebook, Git version control basics
Development Principles: Solution scalability, code reusability, secure design practices, data protection, GDPR-compliant data handling
Stakeholder & Communication: Translating concepts for non-technical audiences, documentation, teamwork, process improvement.

WORK EXPERIENCE

Conduent | Leeds, United Kingdom – Customer Experience Associate | Nov 2024 – Present

- A Handle sensitive customer data in line with GDPR and internal governance controls, maintaining high accuracy across digital service journeys.
- Analyse operational performance metrics to identify bottlenecks and present clear findings to management to support service improvements.
- Produce and maintain KPI reporting outputs (dashboards/MI-style reporting) to support stakeholder decision-making.

Cognizant | Pune, India - Programmer Analyst (Banking & Financial Services) | Feb 2022 – Oct 2023

- Designed and executed repeatable SQL + Oracle DRM data validation workflows, reducing manual reconciliation time by 40% while supporting 100% accuracy for critical financial reporting.
- Consolidated and quality-assured datasets across multiple sources to support system migration, including mapping legacy-to-target fields and resolving discrepancies.
- Translated complex data issues into clear, decision-ready insight for non-technical stakeholders in finance and operations (written updates + presentations).
- Built SQL-based reporting outputs and dashboards to track reconciliation status, exceptions, and operational performance for delivery teams.

Electromates Robotics & Automation | Aurangabad, India - Sales and Marketing Analyst Intern | Aug 2020 – Feb 2021

- Conducted market and trend analysis to support strategic sales planning for industrial automation products.
- Developed forecasting models using statistical techniques, improving forecast accuracy by 15% and supporting inventory/resource decisions.
- Created clear data visualisations and presentations communicating competitor and market insights to senior leadership.

ACADEMIC PROJECTS

- MSc Dissertation: Predictive Modelling for Healthcare Outcomes | Cardiff University
    - Developed ML models (XGBoost, Random Forest) to predict outcomes from complex datasets, using SHAP to explain model behaviour to non-technical audiences.
    - Demonstrated ability to work end-to-end: data cleaning, feature engineering, model training, evaluation and communication of results.
- NHS Operational Strategy Simulation | Cardiff University
    - Used simulation to model call-centre operations, identifying efficiency gaps and recommending resource changes to optimise performance.

EDUCATION

- MSc in Data Science and Analytics - Cardiff University, United Kingdom | Sep 2023 – Oct 2024
- Bachelor of Engineering in Electronics and Telecommunication - Dr. Babasaheb Ambedkar Marathwada University, India | Jul 2015 – Oct 2019

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Data Science Professional
- Applied Data Science with Python Specialization (Coursera)
- Google Data Analytics Professional Certificate
